4th Annual Electronic Warfare Capability Gaps and Enabling Technologies Conference **“Has the EW Vision Blurred or Just Being Refocused?”**

Where: NAVSEA Crane Club Lakeview Conference Center, Crane, Indiana.

Date: 3-5 May 2011

Target Audience: All military and industries involved in EW capability gaps and developers of enabling capabilities. Day 1-2, 3-4 May will be focused on service way ahead and program overviews. Day 3, 5 May will focus on the threat and where the Intel community sees the threat migrating with technology enhancements and will be held at the TS/SCI level.

Military – OSD, Joint Staff, Army, Navy, Air Force, Marines and Coalition partners

Academia/Industry – Senior level and program managers developing EW capabilities

Conference Goal: Provide a forum for professionals from the military, government, industry and academic fields, to discuss issues related to the requirements of EW programs, platforms, and operations.

Conference Topics:

Main: Continuing the Journey to the New Vision
