

ASSOCIATION OF OLD CROWS
CHARLIE YANKEE ROOST
POST OFFICE BOX 2504
HAVELOCK, NC 28532-2504

August 17, 2011

Industry Partners,

The Association of Old Crows, Charlie Yankee Roost will be holding a MAGTF EW Industry Symposium at MCAS Cherry Point, NC on September 27th and 28th. The purpose of this two-day symposium is to foster a dialogue between the Marine Corps EW community and industry on the planned way ahead for MAGTF EW and to gain insight from industry leaders on how the partnership can be further developed.

The first day will include presentations from the Marine Corps to include a MAGTF EW overview, briefs on specific ground and air systems, a roundtable discussion on air and ground system development, and a presentation on network interoperability. The second day will begin with an industry keynote speaker and will be followed by six thirty minute presentation periods open to industry to discuss their thoughts on the MAGTF EW vision and the challenges from their perspective on the Marine Corps achieving the plan.

If you are interested in your company giving a presentation please contact LtCol Jason Schuette at primary 703.695.2364, secondary 703.432.8139 or by email to jason.schuette@navy.mil or jason.schuette@usmc.mil prior to August 31st. Please see the separate attachment with the symposium details.

The Charlie Yankee Roost is anticipating an interesting dialogue among EW professionals and hopes that you will consider attending and participating in this event.

Sincerely,
Todd "Friday" Caruso
LtCol USMC
AOC CY Roost President
