

Mission Quest – “Adopt a Sim” Campaign

September 22, 2020

Greetings STEM Enthusiast,

Please consider supporting the Museum of Aviation Foundation’s **Adopt a Sim** fundraising campaign with a \$3,000 donation. The National STEM Academy is proud of the Mission Quest Flight Simulation Lab and the many students that the program has served since 1997. Your \$3,000 donation will help us raise the money needed to update the 13 computer stations within the Mission Quest lab. Total cost of updating both the hardware and software components is \$30,000. We only need 10 simulator adoptions - will you please help?

The Mission Quest program highlights flight principles, careers in aviation, and hands-on flight simulation to support workforce development, team building, and many math and science curriculum connections.

Please consider supporting the simulator upgrades through the **Adopt a Sim** fundraiser. The Museum of Aviation Foundation is a 501(c)3 organization and all donations are 100% tax-deductible.

Thank you for considering this request. We look forward to working with you!

Sincerely,

Melissa Spalding
