

## Dixie Crow Chapter Sponsors Museum of Aviation Foundation National STEM Academy Benefit Tournament

Dixie Crow Chapter participated as a Tournament Sponsor (\$5,000 Level) of the 2020 Museum of Aviation Foundation National STEM (Science, Technology, Engineering, and Math) Academy Benefit and Georgia Invitational. This year's event was a tremendous success with more than \$158,000 raised in gross income.

This annual endeavor continues to be our most important fundraiser – it is critical for support of our award-winning education programs. Last year, more than 50,000 students and teachers benefitted from exceptional hands-on programs offered in our National STEM Academy. None of that could possibly happen without a lot of help from friends and champions like you.

What happens here at the Museum is vitally important! We help young Americans prepare for their future roles as leaders of this state and nation. With your continued support, we'll provide the highest quality educational programs and aerospace workforce development for the state of Georgia and beyond in a world-class venue.

19<sup>th</sup> Hole Reception: Ken Cirilli, Lisa Cirilli, Dan Penny, Karen Brigance, Richard Glessner

Dixie Crow Chapter Team: Matt Bryant, Jonathan Gates, Paul Cave, Bill Walker
